

Our mission in Marine SABRES is to:

Reverse biodiversity decline

Strengthen the conservation of coastal and marine areas

Balance the needs of both people and ecosystems

Your voice as stakeholder is essential to the success of this project!

With YOUR HELP:

we will be able to identify key priorities for your coastal marine environment and co-create an easy-to-use management- and decision-support system

January 17th, 2025 - São Miguel Island

January 20th, 2025 - Terceira Island

How Can You benefit?

- Embed your local knowledge into our project
- Help us create a practical tool, useable for you
- Learn more about your coastal and marine environment
- Network with other stakeholders!

about the project!!

MORNING PROGRAM

Understanding Coastal Systems: **a Simple Social-Ecological-System**

Prioritizing your Opinions: insights from "1st round" of consultations

Connecting the Dots: Causal Loops between important factors

AFTERNOON PROGRAM

Managing our Coastal and Marine Areas: Decision-making and Conservation

Decision Support System: a **"Shiny App"**

Marine Corridor in Macaronesia

Organized by the HuFoSS Foundation,
Roosendaal, Netherlands

In the first round of consultations in 2023, many of you shared valuable insights about your coastal and marine environments.

Now, we're excited to invite you to the second round, where we will ask for feedback on all the work that has been done since. Your viewpoints will feed back into the project, and are essential for the realization of one of the project's central goals: the co-creation of a management- and decision support system that is useful for YOU!

In the morning sessions, we will present the project's overall goals, reflect on the outcomes of the first round of stakeholder consultations, and discuss the progress made so far. Your insights are valuable to us, and we'll gather them through engaging interactive sessions. These morning discussions are designed to be accessible to a broad audience of stakeholders.

In the afternoon sessions, we'll dive deeper into specific management strategies, conservation measures, and decision-support tools. These discussions are more tailored to decision- and policy-makers, spatial planners, and Protected Area managers, but everyone is welcome to participate and contribute to the conversation.

We'd like you to get involved!

Dates January 17th, 2025 – São Miguel Island
& Location January 20th, 2025 – Terceira Island

Detailed Meeting Agenda (draft)

Morning 09:00 – 13:30 General Topics

- 9:00 Welcome & opening of the meeting, overview of topics and format
- 9:10 Understanding Coastal Systems: a Simple Social-Ecological System
- 10:00 Prioritizing your Opinions: Insights from "1st round" of consultations
- 11:00 **COFFEE BREAK**
- 11:25 Connecting the Dots: Causal Loops between important factors

13:00 LUNCH

Afternoon 14:00 – 17:00 Specialized Topics

- 14:00 Managing our Coastal and Marine Areas: Decision-making and Conservation
- 15:00 Decision Support System: a "Shiny-App"
- 16:00 **COFFEE BREAK**
- 16:30 Marine Corridor in Macaronesia
- 17:00 **CLOSE**
